

## Docket ID: USCG-2016-0132-0001

Dear U.S. Coast Guard,

Please reject the proposal to add 43 new commercial berths along the Hudson River (Docket ID: USCG-2016-0132-0001). This plan threatens to re-industrialize the Hudson, and it could negatively impact our environment, riverfront communities, and local economies by allowing increased crude oil transport on the river. Further, forty-two out of forty-three berths are designated as "long-term," meaning that they could be used as floating oil storage sites.

Increased transport and storage of crude oil on the Hudson would:

- Increase the risk for devastating oil spills and contamination of drinking water supplies
- Undermine coastal revitalization efforts
- Disturb waterfront communities with round-the-clock noise and light pollution
- Threaten recreation, boating, and tourism
- Promote more fracking, a dangerous method of drilling that threatens our water, health, and climate
- Increase our reliance on dirty fossil fuels

I urge you to protect public safety, our health, and the environment by rejecting this proposal for new anchorage sites on the Hudson. However, if the Coast Guard decides to move forward with the plan, it must undergo comprehensive environmental review, including a full environmental impact statement.

Signed,
