

The Hudson River Is Not A Parking Lot

TERRENCE MURPHY August 02, 2016 To December 06, 2016 | HUDSON RIVER

Say NO to New Commercial Barge Anchorages!

The Hudson River is not a parking lot!

Our communities have invested too much in the revitalization of the river to allow all our progress to be undone. Having these barges parked on the river creates the potential for navigational, environmental and homeland security hazards that will be detrimental to the ecological health of the river and wildlife and the economic health of our tourism and fishing industries.

Unelected rulemakers in Washington and Albany should not pass unilateral changes in the the middle of the night with little to no public comment.

We, the undersigned of this petition, say NO to more commercial barges on the river.

| | | | | |
